PROFESSIONAL SUMMARY

A creative web developer with almost 3 years of hands-on experience in HTML, CSS, and JavaScript, specializing in React.js, Next.js, and React Native. Proficient in Node.js, Express.js, and MongoDB with expanding expertise in Java and Spring Boot for building robust, enterprise-level backends. Also exploring Python and Django to expand backend development skills. Passionate about building scalable web applications and leveraging data-driven insights.

PROFESSIONAL EXPERIENCE

Associate Frontend Developer

Cimba.ai | Kolkata, West Bengal | June 2025 – Present | Full-time

- Introduced and led major improvements to the File Preview system, moving file parsing from the browser to server-side streaming architecture, significantly improving performance and handling of large files.
- Built end-to-end features for Proactive Signals, including usage analytics, email automation, push notifications, CSV/XLSX attachments, and delivery monitoring.
- Designed and implemented REST APIs, database schemas, and business logic for multiple platform modules, leveraging Spring Boot and PostgreSQL.
- Developed reporting workflows supporting PDF, DOCX, and PPTX generation, enabling AI-powered report creation and automated distribution.
- Built and optimized analytics dashboards, audit logs, and usage-insight features, including KPI tracking, trend analysis, and query performance improvements.
- Contributed to platform security and reliability through authentication enhancements, inactivity logout mechanisms, workflow management, and access-control improvements.
- Modernized application architecture by upgrading React 18 to React 19, migrating Redux to Redux Toolkit, and resolving critical production stability issues.

Frontend Developer

Underscore Technology Private Ltd. | Kolkata, West Bengal | Mar 2023 – Jul 2024 | Full-time

- Developed a Next.js-based e-commerce platform and a React Native mobile application for Playzoon, a sports ecosystem connecting players and service providers
- Implemented key features including admin approval workflows, profile completion validation, and role-based user management, ensuring secure and seamless user experience

- Developed and maintained Explore, a React.js-based marketplace platform supporting business creation, product/service listings, requirement posting, real-time chat, and Google Maps integration
- Integrated Google Maps API for location-based features and interactive mapping capabilities
- Collaborated with clients, designers, and backend developers to deliver scalable and user-centric web applications

Software Engineer Intern

Underscore Technology Private Ltd. | Kolkata, West Bengal | Oct 2022 – Feb 2023 | Apprenticeship

- Gained hands-on experience in React.js, building reusable and responsive user interfaces for real-world applications
- Deepened understanding of state management with Redux and Redux Toolkit for efficient development workflows
- Built and utilized custom React hooks to improve code reusability, maintainability, and development efficiency
- Collaborated with senior developers on production projects, strengthening debugging and frontend development skills

EDUCATION

Master of Computer Application (MCA)

Maulana Abul Kalam Azad University of Technology, Kalyani, West Bengal | 2021-2022 | CGPA: 9.43

Bachelor of Science in Physics Honours

Vidyasagar Day College (Calcutta University), Kolkata, West Bengal | 2016-2020 | 64.4%

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Next.js, React Native, Redux, Redux Toolkit

Backend: Node.js, Express.js, Python, Django, Django REST Framework, Java, Spring Boot

Database: MongoDB, PostgreSQL, SQLite

Version Control: Git, GitHub

Tools & IDEs: VS Code, Postman

APIs & Libraries: Google Maps API, Postman, REST APIs

PERSONAL PROJECTS

Restaurant Manager

A comprehensive platform for streamlining restaurant operations including user registration, customer management, menu handling, and order processing. Built with Django REST Framework and SQLite for the backend, and React.js for the frontend.

[GitHub](#)

Job Clicker

A job marketplace platform enabling seamless interaction between job seekers and employers. Built with Next.js for the frontend, Node.js and Express for the backend, and MongoDB for the database.
